

CHRIST KING HR. SEC. SCHOOL, KOHIMA
CLASS-2
SUBJECT: SCIENCE, SECOND TERM

CHAPTER- 2
TYPES OF PLANTS.

A. Tick marks the correct answer.

1. **These plants have woody and hard stems.**
Ans: Tress
2. **These plants have more than one branch.**
Ans: shrubs
3. **This is an example of herb plant.**
Ans: creepers

B. Answer These Questions.

1. What are Trees?

Ans: Plants that are big and have woody stems are called trees.

2. Write one difference between a shrub and a herb?

Ans: A shrubs are woody and hard but herbs have soft and weak stems.

3. Which trees live for many years?

Ans: Banyan and Peepal are the trees that live for many years.

C. Name any two:

- | | | |
|-------------|---------|------------|
| 1. Trees | banyan | peepal |
| 2. Shrubs | Rose | hibiscus |
| 3. Herbs | mint | spinach |
| 4. Climbers | pea | Beans |
| 5. Creepers | pumpkin | watermelon |

D. writes T for true and F for false.

- | | |
|--|-----------------|
| 1. Trees are small and weak plants. | <u>-False</u> |
| 2. Small bushy plants are called shrubs. | <u>--True</u> |
| 3. Mint and spinach live for a few months. | <u>--True.</u> |
| 4. Climbers do not need support to stand. | <u>--False.</u> |
| 5. Creepers grow along the ground. | <u>--True.</u> |

CHAPTER—5
WILD ANIMALS AND THEIR SHELTERS.

A. Tick Mark the correct answer.

- 1. This animal lives in a hole.**
Ans: Snake
- 2. It eats only grass. Ans:**
Rabbit
- 3. Animals that eat only flesh of other animals.**
Ans: carnivores
- 4. Jackals and vultures are called.**
Ans: wild animals

B. Answer this question.

- 1. Where wild animals do lives?**
Ans: wild animals live in the forest.
- 2. What do herbivores eat?**
Ans: Herbivores eat only plants.
- 3. Where do lion live?**
Ans: Lion live in a cave
- 4. Which animals live in holes?**
Ans: Snake, rabbit and mole live in holes.
- 5. Which animals are called scavengers?**
Ans: Vulture hyena and jackal are called scavengers.

C. Fill in the blanks with correct words.

1. Lion lives in den.
2. A Monkey lives on a Tree.
3. A deer eats only plants.
4. A man eats both plants and flesh of animals.
5. Scavengers clean the environments

CHAPTER—8
WE LIVE IN A HOUSE.

A. Answer these questions.

- 1. What is a permanent house?**
Ans: A house which builds at one place that cannot be moved is called permanent house.
- 2. What is a temporary house?**
Ans: A house which can be moved from one place to another is called temporary.
- 3. Name any three temporary houses?**
Ans: Tent, Hut, house boat are the three temporary house.
- 4. Name any three permanent houses.**

Ans: Flats, Bungalow and duplex are three permanent houses.

5. What is an ideal house?

Ans: A house which gets plenty of sunlight and fresh air is called house.

B. Write T for true and F for False.

- | | |
|--|--------------|
| 1. A house is a shelter for us. | <u>True</u> |
| 2. An igloo is made of wood. | <u>False</u> |
| 3. A house boat can be seen in Kashmir. | <u>True</u> |
| 4. A hut is a temporary house. | <u>True</u> |
| 5. A house should not be neat and clean. | <u>False</u> |

**CHAPTER—13
WATER WE DRINK.**

A. Answer these questions.

1. What is surface water?

Ans: Water found on the surface of the earth is called surface water.

2. Write four uses of water?

Ans: Four uses of water are drinking, bathing, washing and cooking.

3. Name two sources of ground water.

Ans: Wells and hand pumps are the sources of ground water.

4. Why is impure water not safe for drinking?

Ans: Impure water not safe drinking because it contains germs and dirt's.

5. Why should we boil water before drinking?

Ans: we should we boil water before drinking because boiling.

6. Write three ways of conserving water>

Ans: 1). By closing the tap while brushing our teeth.

2). Taking shorter showers i bathroom.

3). Collecting runoff water from the roof in Containers.

B. Tick marks the correct answer.

1. ----- is the main source of water.

**2. A ----- is a natural body of running water. Ans:
stream.**

**3. ----- Water is pumped from wells and hand pumps. Ans:
Ground.**

**4. Water can be stored in -----
Ans: tanks.**

5. Impure water contains -----

Ans: germs.

C. Write T for true and F for false.

1. All living being need water to live. True.
2. Rain water is the main source of water True
3. River is an example of underground water False
4. Impure water is good for drinking False
5. Boiling of water removed germs. True

CHAPTER—1 FORMS OF WATER.

A. Answer these questions.

1. How many forms does water have?

Ans: Water has three forms 1) Liquid, 2) Solid, 3) gas.

2. What is evaporation?

Ans: The process by which water changes into water vapour is called evaporation.

3. What is condensation?

Ans: The process by which water vapour change back into water is called condensation.

4. Describe water cycle.

Ans: Water cycle moving a cycle from the earth to the sky and then back to the earth again.

B. Fill in the blanks with correct words.

1. When ice melts, it Turn into water.
2. When water vapour cools down, it charges into water.
3. The movement of water is called water cycle.
4. Change of water vapour into water is called condensation.

C. Write T for True and F for False.

1. Water exists in three forms True
2. Ice is the liquid form of water False.

3. When water is heated it changes into stems. True.
4. Ice cannot be change into water vapour. False.
5. A water cycle repeats over and over again. True.

D. Tick Mark the rights answer.

1. In the frozen, water is

Ans: Ice

2. Stems is a

Ans: Gaseous form.

3. When water is boiling, it changes into

Ans: Stems.

4. When water vapour gets cooled, it becomes water again. This process is called

Ans: condensation.

E. Complete these sentences.

1. When water is boiled, it

Change into water vapour

Stem is the gaseous from of water.

2. When water vapour, it Change into water.

3. When water is cooled, it

Change into ice.

Ice is the Solid from of water.
